

Revised list of theses for UTTAC Annual Report 2005

8. THESES

M. Sc. Theses

Yuji Ito	Study of $^{118}\text{Sn}(d,p)$ reaction below Coulomb barrier
Kentaro Miki	Measurement of asymmetric emission of direct photon in RICH heavy-ion experiment
Takuma Yasuno	Development of tilted electrode gas ionization chamber for a measurement of an energy loss of an unstable nucleus
Hiroya Wakamatsu	Time evolution of resonant coherent excitation
Rumi Uchiyama	Vicinage effect in the cluster-induced electron emission
Masaya Furutani	Response of semiconductor particle detector to cluster incidence
